

KOMPENSATORER

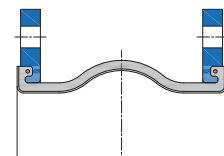

Type 39 DN range 50 - 1000
Overall length (mm) variable

Applications
Industrial plants,
repairs/replacements

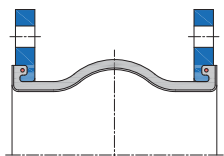

Type 50 DN range 25 - 500
PTFE Overall length (mm) 130 - 200

Applications
Chemical plants

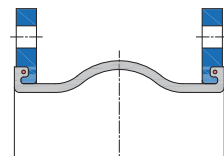

Type 39 DN range 50 - 500
PTFE Overall length (mm) variable

Applications
Chemical plants

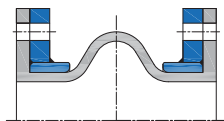

Type 51 DN range 32 - 600
Overall length (mm) 130 - 250

Applications
Chemical plants, plant engineering,
pressure pipes (25 bar)

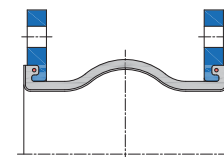

Type 40 DN range 200 - 5000
Overall length (mm) 250 - 800

Applications
Power stations, large-scale plants,
treatment plants, pipelines

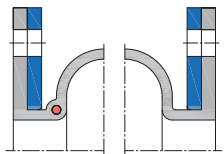

Type 51 DN range 32 - 300
PTFE Overall length (mm) 130

Applications
Chemical plants, plant engineering,
pressure pipes (10 bar)

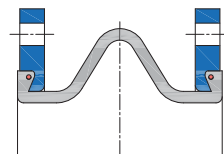

Type 42 DN range 50 - 3000
Overall length (mm) 150 - 450

Applications
Paper industry, power stations,
repairs/replacements up to 100 bar

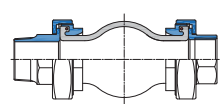

Type 54 DN range 25 - 100
Overall length (mm) 65 - 100

Applications
Hydraulic systems (SAE flanges)

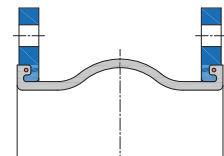

Type 46 DN range 20 - 50
Overall length (mm) 130

Applications
Building technology, engine
technology

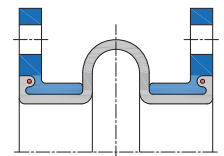

Type 55 DN range 20 - 1000
Overall length (mm) 125 - 300

Applications
Shipbuilding, building technology,
water plants, plant engineering,
treatment plants

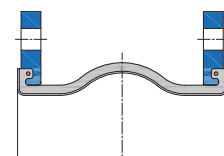

Type 48 DN range 50 - 250
Overall length (mm) 150 - 160

Applications
Steelworks, plant engineering

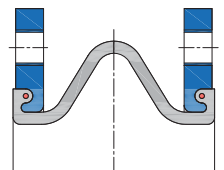

Type 55 DN range 25 - 500
PTFE Overall length (mm) 125 - 250

Applications
Chemical plants

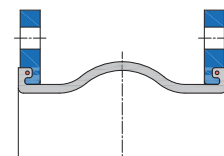

Type 49 DN range 32 - 500
Overall length (mm) 100 - 110

Applications
Building technology, shipbuilding,
plant engineering, weighing
technology, gas plants

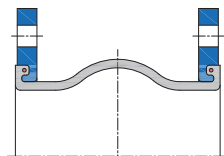

Type 55 DN range 20 - 300
SO Overall length (mm) 160 - 200

Applications
Shipbuilding, building technology,
water plants, treatment plants

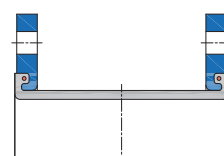

Type 50 DN range 20 - 1000
Overall length (mm) 130 - 300

Applications
Building technology, gas plants,
plant construction, power stations
Page 34 onwards

Type 56 DN range 50 - 1000
Overall length (mm) 150 - 1000

Applications
Paper industry, conveyor technology,
media containing solids
Page 58 onwards

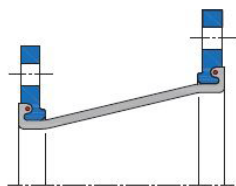

KOMPENSATORER

Type 57 DN range 50 - 300
Overall length (mm) 250 - 400

Applications

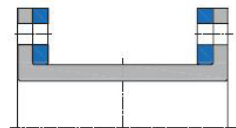

Paper industry, conveyor technology,
media containing solids

Type 58 DN range 50 - 3000
Overall length (mm) 200 - 1000

Applications

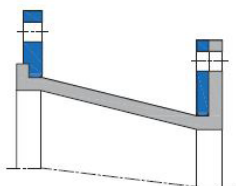

Paper industry, conveyor technology,
media containing solids

Type 59 DN range 350 - 1500
Overall length (mm) variable

Applications

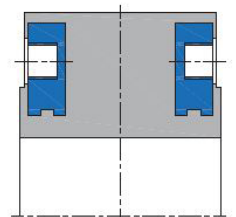

Paper industry, conveyor technology,
media containing solids

Type 60 DN range 20 - 200
Overall length (mm) 70 - 90

Applications

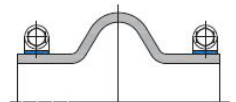

Building technology,
industrial plants

Type 61 DN range 50 - 1500
Overall length (mm) 250 - 730

Applications

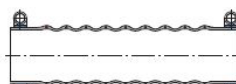

Industrial plants, wastewater
technology, engine technology

Type 62 DN range 50 - 600
Overall length (mm) variable

Applications

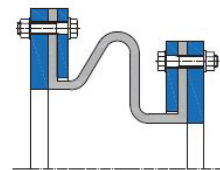

Drainage systems for
bridges, halls, buildings

Type 63 DN range all
Overall length (mm) variable

Applications

Plant engineering, production
based on customer drawings

Type 64 DN range all
Overall length max. 500 mm

Applications

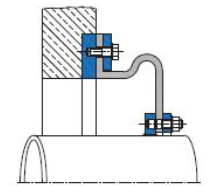

Duct sealing, building technology,
power station construction;
low pressure range: max. 0.5 bar

Type 65 DN range 80 - 5000
Overall length (mm) variable

Applications

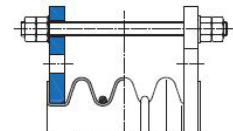

Wall sealing, ground water sealing

Type 80 DN range 20 - 1200
Overall length (mm) 45 - 250

Applications

Chemical plants

Type 80 HD DN range 25 - 600
Overall length (mm) 55 - 322

Applications

Chemical plants
